

CONSENSUS CONFERENCE

EUS-guided Gastroenterostomy

DOMINA ZAGARELLA SICILY HOTEL • SANTA FLAVIA (PA)
22 • 24 MAY 2025

Scientific Rationale

i-EUS Conference aims to connect experts in Bilio-Pancreatic Diseases by an on site meeting promoting the share of knowledge and experiences. With this intent the Conference is organized in two main events:

Think Tank Noon where we can explore “different aspects beyond the diseases” as economical, gestional, technological, psychological, enviromental issues.

Consensus EUS-GEA was recently applied in clinical practice and it is increasingly performed worldwide. Despite high quality publications showing its efficacy and safety compared with gold standard treatments, we still lack of guidelines to help the proper indications, cases selection and the spread of the procedures. Moreover, the procedure is not yet fully standardized not only from the technical but also from the clinical point of view. To overcome the unmet needs, we planned this meeting involving experts from different specialties in a multidisciplinary manner to address the “gray-zone” providing final statements approved by our community.
